

How to Enable or Disable Accessibility Mode in AMS

Accessibility Mode allows users of assistive technology, such as speech recognition software and screen readers, to use with AMS more effectively. **By default, Accessibility Mode is disabled.**

I. Enable Accessibility Mode

a. After logging into AMS

1. Log into AMS at <https://ams.hhs.gov> using one of the three methods presented on the login page. *For quick and easy access to your applications, add this page to your browser favorites or create a desktop shortcut.*

Login Methods to AMS

2. To turn on Accessibility Mode, click on the "Enable" radio button in the upper right hand corner of your AMS homepage.

Note: You can turn on Accessibility Mode the same way on every AMS screen and save your selection to your AMS profile. This sets the default to Accessibility Mode for all future sessions that you begin by logging into AMS, regardless of the computer or browser you use.
