

How to Link or Delink EHRP

Users with an active AMS profile and an EHRP account can access the application by logging into AMS after completing a one-time linking process. The reverse is also possible, i.e., a user can remove the EHRP link from their homepage by following the steps for delinking.

Note: EHRP linking requires entering EHRP username and password; if you do not know your credentials, please contact your EHRP Security Administrator.

1. Log into AMS at <https://ams.hhs.gov>. For quick and easy access to your applications, add this page to your browser favorites or create a desktop shortcut.
2. On your AMS homepage, select the “Link/Delink Applications” tab or click on the “Customize your list” link.

I. Linking EHRP

1. On the “Link/Delink Application” page, click on the “Link an Application” radio button.
